

## Questions to JRA2

What do you expect of JRA1?

- Do you need the telescope at all?
- Where? In front, behind or both?
- Should the telescope be inside or outside of the magnet, or both?
- What information from the telescope?
- Movement
  - How many axes?
  - How much?
  - Beam or DUT?
- How do you expect to integrate with the DAQ?

Information exchange

- Contact person on either side?
